

Matteo Manente

PhD Student in Psychological Sciences, University of Padova

Via Pietro Selvatico, 13, 35132 (PD), Italy

+39 346 575 6567 | manente.matteo00@gmail.com

Italian | Born: 29/11/2000

Licensed Psychologist (Section A)

Ordine degli Psicologi del Veneto, N. 15759 (since Oct. 13, 2025)

I am a **Licensed Psychologist, PhD Candidate** in Psychological Sciences at the University of Padova, and member of the Psicostat research group (psicostat.dpss.psy.unipd.it).

My work integrates clinical psychology and statistical methodology to enhance the robustness, transparency, and replicability of psychological research.

CURRENT RESEARCH ACTIVITIES

- Development of *Inferential Multiverse Meta-analysis*
- Application of *Inferential Multiverse Meta-analysis* to evaluate efficacy of psychotherapies in the treatment of psychopathology
- Statistical methodology and research transparency in psychological science

EDUCATION

2025 – ongoing

PhD in Psychological Sciences (XLI Cycle)

University of Padova

Supervisor: Prof. Gianmarco Altoè

2023 – 2025

M.S. in Developmental Clinical Psychology (110 cum laude)

University of Padova

Thesis: 'Multiverse Meta-Analysis: Proposal of a New Inferential Approach with an Application to Depression Psychotherapy'.

Supervisor: Prof. Gianmarco Altoè

Co-Supervisor: Dott. Filippo Gambarota

July – Nov 2024

Internship (500h)

CTRP 'I Cristalli' (VR) - Residential Psychiatric Rehabilitation for Adolescents

Activities: Facilitation of therapeutic groups (art/music therapy), multidisciplinary case evaluation, drafting individualized therapeutic plans (PTI), daily clinical documentation, and support for social reintegration.

2019 – 2023

B.S. in Psychological Sciences and Techniques (109/110)

University of Padova

Thesis: Bullying, Cyberbullying and Parenting Styles.

Supervisor: Prof. Tiziana Pozzoli

2022 – 2023

Internship (250h)

Mater Salutis Hospital and Day Center 'Il Tulipano', Legnago (VR)

Activities: Support in rehabilitative sessions with psychiatric patients, participation in structured group activities and multidisciplinary team meetings.

ADVANCED TRAINING IN STATISTICS & PROGRAMMING

June 2026

Data Simulation in Psychological Studies - PhD Course (10h)

University of Padova

Introduction to data simulation as a tool for study planning, methodological evaluation, and statistical reasoning. Development of simulated datasets to assess power, bias, uncertainty, and the consequences of different analytical choices.

May 2026

Evaluation of Outliers and Influential Cases in Multivariate Perspective - PhD Course (5h)

University of Padova

Introduction to the detection and interpretation of outliers and influential observations in multivariate data analysis. Focus on diagnostic methods, leverage, influence measures, multivariate distance, and transparent decision-making in data screening.

April 2026

Introduction to Meta-Analysis with Application in R - PhD Course (5h)

University of Padova

Introduction to meta-analytic methods for quantitative evidence synthesis. Topics included effect size computation, fixed- and random-effects models, heterogeneity assessment, moderator analysis, publication bias, and implementation in R.

April 2026

Power and Design Analysis - PhD Course (5h)

University of Padova

Introduction to statistical power and design analysis in psychological research. Evaluation of sample size, effect size uncertainty, sensitivity analysis, and the implications of underpowered designs for inference and research planning.

Jan - Mar 2026

Advanced scientific and parallel programming with HPC infrastructures - PhD Course in Information Engineering Program (20h)

University of Padova

Introduction to High Performance Computing (HPC) systems and parallel programming. Development and deployment of parallel software using OpenMP, MPI, and CUDA, with practical experience in remote resource management, version control, and containerization.

February 2026

Generalized Linear Models for Psychology: Understanding, Simulating, and Planning Your Analyses - Hands-On Psicostat (4h)

University of Brixen

December 2025

Generalised Linear Models - PhD Course (20h)

University of Padova

Introduction to GLMs for non-normal data. Implementation in R with focus on parameter interpretation, and use of Monte Carlo simulations to study data generation processes and statistical properties (e.g., type I error and power).

Nov - Dec 2025

Basics of Statistical Inference and Linear Models with R - PhD Course (20h)

University of Padova

Foundations of statistical inference and linear models with hands-on application in R. Focus on probability, estimation, hypothesis testing, and planned comparisons, with emphasis on problem-solving and computational skills in data analysis.

November 2025

Basics of R for Data Science - PhD Course (10h)

University of Padova

Introduction to R for data analysis. Development of core programming skills, including data handling, control structures, and custom functions, with practical use of common packages for statistical analysis.

ADDITIONAL ACADEMIC & PROFESSIONAL TRAINING

May 2026

Questionable Measurement Practices and How to Avoid Them - PhD Course (5h)

University of Padova

Overview of questionable practices in psychological measurement and scale use. Focus on transparent measurement decisions, reliability and validity issues, item selection, scoring procedures, and strategies to improve reproducibility.

April 2026

Data Visualisation with ggplot2 - PhD Course (5h)

University of Padova

Introduction to data visualisation in R using the ggplot2 package. Focus on the grammar of graphics, effective graphical communication, exploratory plots, and the creation of clear, reproducible, publication-ready figures.

February 2026

Conducting Systematic Reviews - PhD Course (5h)

University of Padova

Introduction to systematic review methodology for evidence-based research. Development of research questions, review protocols, and evidence synthesis strategies, including literature search, bias assessment, and reporting of findings.

February 2026

Psychological Measurement - PhD Course (15h)

University of Padova

Introduction to measurement theory with a focus on Representational Measurement Theory (RMT). Examination of limitations in measuring psychological constructs and application of alternative methods (ordinal and conjoint measurement) across experimental, clinical, and social contexts.

February 2026

ITRN Hands-On Workshop on Reproducibility & Open Science (4h)

University of Verona

Training on Open Science methodologies, covering Data Management Plans, FAIR data principles, preregistration and Registered Reports, open data and code practices, collaborative research (Team Science), and open peer review and publishing models.

June 2025

Summer School: Replicability Crisis in Science (20h)

University of Padova

Interdisciplinary training on causes, implications, and remedies to the replicability crisis in scientific research.

May 2025

Summer School: BEYOND classical p-values (30h)

University of Trento

Training on AI and advanced statistical methods including network psychometrics, machine learning, and permutation testing.

April 2025

PreDoc Camp in Psychology & Cognitive Science (20h)

University of Trento

Academic workshops and methodological seminars with PhD faculty.

March 2025

ARCA Course: PsychoPy3 - Programming an Experiment (20h)

University of Padova

Hands-on training in PsychoPy and Python-based experiment scripting.

Nov – Dec 2024

Drafting Clinical Reports in Developmental Settings (8h)

University of Padova

Drafting clinical reports for neurodevelopmental assessments, diagnostic distinctions, and experiential small-group work.

Mar – May 2023

Soft Skills Training Laboratory

University of Padova

7-week lab on interpersonal communication, emotional intelligence, and teamwork.

TEACHING ACTIVITIES

June 2026

Summer School on Meta-Analysis - PhD Level (6h)

University of Cagliari

Teaching activity on the theoretical foundations and practical implementation of meta-analysis. Topics included fixed- and random-effects models, heterogeneity indices, publication bias assessment, and hands-on applications in RStudio using the metafor package.

Mar – May 2026

Tutor Teaching - Master's Course "Analisi dei dati in psicologia dello sviluppo" (21h)

University of Padova

Conducted introductory sessions on fundamental statistical concepts and introduced RStudio for data analysis. Guided applied exercises in RStudio on sampling theory and linear models. Supported the organization and management of teaching activities through Moodle, including uploading slides, exercises, R code, datasets, and other digital learning materials. Used Moodle to manage online learning spaces, including forums, lessons, quizzes, and questionnaires. Organized an exam simulation on Moodle with students, supporting their preparation and familiarization with online assessment procedures.

March 2026

Tutor Teaching - Master's Course "Analisi dei dati in ambito di comunità" (14h)

University of Padova

Conducted introductory sessions on basic statistics and R/RStudio for data analysis and visualization. Provided training on Quarto and Zotero for reproducible research and reference management. Created and uploaded three video tutorials on Zotero and Quarto for reproducible document creation. Supported the organization and management of teaching activities through Moodle, including uploading slides, exercises, R code, datasets, and other digital learning materials. Used Moodle to manage online learning spaces, including forums, lessons, quizzes, and questionnaires.

THESES SUPERVISION

Nov 2025 – Jul
2026

Master's Thesis Co-supervision

Post-Selection Inference in Multiverse Analysis (PIMA): An Application to the Association Between Smartphone Use and Mood

MSc in Developmental Clinical Psychology, Department of Developmental Psychology and Socialisation, University of Padova

Student: Blerina Baholli

Supervisor: Prof. Gianmarco Altoè

Co-supervisor: Matteo Manente

Nov 2025 – Jul
2026

Master's Thesis Co-supervision

Vibration of Effects (VoE): Assessing the Robustness of the Association Between Smartphone Use and Mood

MSc in Developmental Clinical Psychology, Department of Developmental Psychology and Socialisation, University of Padova

Student: Gaia Bertiato

Supervisor: Prof. Gianmarco Altoè

Co-supervisor: Matteo Manente

Nov 2025 – Jun
2026

Bachelor's Thesis Co-supervision

Preregistration and Registered Reports in Psychological Research: A Critical Analysis of a Replication Study of the Unconscious Working Memory Effect

Bachelor's Degree in Psychological Sciences of Development, Personality, and Interpersonal Relationships, University of Padova

Student: Lucia Segatto

Supervisor: Prof. Gianmarco Altoè

Co-supervisor: Matteo Manente

SKILLS

- **Languages**

- Italian (Mother tongue)
- English (C1 - IELTS 8.0)
- Spanish (Intermediate)

- **Digital Skills**

- Advanced knowledge: R, RStudio, Quarto, Markdown, data visualization with ggplot2
- Good knowledge: Moodle, Zotero, MS Office, Canva Design
- Basic knowledge: Python, Git, PsychoPy

- **Data Analysis**

- Statistical modeling, psychometrics, psychological testing, meta-analysis, multiverse analysis, data visualization, and reproducible research workflows.

- **Teaching & E-learning**

- Experience with Moodle for the organization and management of university teaching activities, including the creation and management of forums, lessons, quizzes, questionnaires, and online exam simulations. Experience in uploading and organizing digital teaching materials, including slides, exercises, R code, datasets, and video tutorials. Familiarity with the production of digital learning resources, including video tutorials on Zotero and Quarto for reproducible document creation.

WORK EXPERIENCE

Apr - Sept 2025

Residential Care Worker

Comunità Terapeutica Riabilitativa Protetta (CTRP) 'I Cristalli' (VR)

Facilitation of therapeutic interventions, multidisciplinary evaluations, drafting therapeutic plans, and clinical documentation.

AWARDS

Feb 2026

Valiant Award - Cognitive Science Arena (CSA) 2026

Best Talk

Presentation Title: “*Your meta-analysis depends on choices: A multiverse approach to solid inference*”.

INVITED TALKS & KEYNOTE LECTURES

Sep 2026

Invited Keynote Speaker - AIP Sperimentale 2026

‘One Dataset, Many Results: Multiverse Inference in Psychological Science’.

Annual Meeting of the Experimental Psychology Section, Italian Association of Psychology (AIP) 2026, Venice, Italy

Jan 2026

Invited Talk - University of Innsbruck

‘Multiverse Meta-Analysis: Assessing Robustness and Researcher Degrees of Freedom in Psychological Research’.

Methodenvertiefung Meta-Analysis Course, University of Innsbruck

PUBLICATIONS

Manente, M., Altoè, G, Finos, L., Gambarota, F. (*in prep*). A Framework for Inference in Multiverse Meta-analysis with Applications to Real Case Studies.

Marci, T., Calignano, G., **Manente, M.**, Liuzza, M. T. (*submitted to Journal of Personality Assessment*). Evidence for a Two-Dimensional Structure of the Italian short-form Grit-S in Youth.

CONFERENCES

2026

Poster

Manente, M. & Altoè, G. 'Improving Robustness in Meta-Analysis Through Inferential Multiverse Analysis'.

Annual Meeting of Psychometric Sector (PSI-03) 2026, Turin, Italy

2026

Lightning Talk

Manente, M. & Altoè, G. 'Beyond Descriptive Multiverses: Post-Selection Inference for Multiverse Meta-Analysis'.

Society for the Improvement of Psychological Science (SIPS) Online 2026

2026

Poster

Manente, M., Finos, L., Altoè, G. 'Does EMDR Really Work? A Multiverse Meta-Analysis of PTSD Treatment Efficacy'.

Italian Reproducibility Network (ITRN) Meeting 2026, Verona, Italy

2026

Talk

Manente, M., Altoè, G., Finos, L., Gambarota, F. 'Your meta-analysis depends on choices: A multiverse approach to solid inference'.

Cognitive Science Arena (CSA) 2026, Bressanone, Italy

2025

Talk

Manente, M., Gambarota, F., Finos, L., Vesely, A., Altoè, G. 'Choices Shape Conclusions: An Inferential Multiverse approach to Meta-Analysis'.

Psicostat Meeting (Online)

2025

Poster

Manente, M., Gambarota, F., Finos, L., Vesely, A., Altoè, G. 'Enhancing Transparency and Rigor in Psychology: A Multiverse Inference Framework'.

Associazione Italiana di Psicologia (AIP) Sperimentale National Congress 2025, Torino, Italy.

2025

Talk

Manente, M., Gambarota, F., Finos, L., Vesely, A., Altoè, G. **'Post-Selection Inference in Multiverse Meta-Analysis (PIMMA)'**.

European Mathematical Psychology Group (EMPG) Meeting 2025, Padova, Italy

2025

Symposium

Sità, L., **Manente, M.**, Perugini, A., Calignano, G., Toffalini, E., Marci, T., Pastore, M., Altoè, G. **'Set up for a Methodological Review Board in Psychology'**.

Platform for Young Meta-Scientists (PYMS), Tilburg, Netherlands

THIRD MISSION

Mar 2024 – *ongoing* **Methodological Review Board (MRB) Development**

University of Padova

Current member of the Pilot Study Team

Collaborating on the design/implementation of a departmental Methodological Review Board for the development and promotion of research quality and Open Science.

Nov 2025 **La scienza è aperta: la scienza incontra la città**

University of Padova

In the Organization Committee

Public engagement event promoting Open Science, transparency, and collaboration in research to the general public.
